THE DAILY and WEEKLY HERALD has more than double the circulation of any other paper published in Southern California. Business men recognize it accordingly as the best advertising medium South of San Francisco.

WEDNESDAY, DECEMBER 22, 1875.

The pomegranate is one of the most profitable fruits grown in this valley. The trees bear fruit in three years from the cuttings and will grow on the most ordinary soil without irrigation. The pomegranate is a delicious fruit and possessing medicinal qualities of great value. It will bear shipment better than any other fruit. It may be barrelled up and sent around the globe in good order. The retail price of the pomegranate on the street is ten cents a piece and General STONEMAN informs us that he has a standing offer from a San Francisco firm to take all the pomegranates he can produce as five cents a piece.

THERE is some opposition to the donation of \$50,000 by California to aid the Centennial exposition. The opposition is based on the reasonable supposition that the money would be squandered, as a great proportion of the public funds are, and the State derive no real good therefrom. The value of the donation to the State depends altogether on how the money is expended. We might use fifty thousand in the exhibition to excellent advantage, and we can so utterly throw away that amount that it will not do us a particle of good. The appropriation should be well hedged and what is to be done with it should be distinctly specified in the bill making the donation.

Mr. WILLIAM F. HALL harvested this year off of his forty acre tract near Downey City, seventy tons of volunteer barley hay of best quality. After taking off his hay he planted the ground in corn of the early King Phillip variety, and gathered and cribbed his thirty bushels per acre. This is a good showing, particularly when it is observed that he had no expense of plowing or seeding his barley, and gave but one plowing to his corn. Any citizen who doubts this statement let him visit Downey City, where careful statistics will show 8,000,000 pounds shipment for the year 1875, and not yet ended.

A very important commission met in this city yesterday to investigate a matter pertaining solely to the city. The commission is composed of some of the first citizens of the county. But as the object is to determine the value of property in the city, it seems a little strange that the commissioners were not selected from among those who are familiar with the value of property on the streets of Los Angeles. No objections can be urged to the commissioners so far, as intelligence and integrity are concerned, but it is not presumable that a gentleman residing in the country, is, or can be so well informed as to the value of city property as those to the "manner born."

No Bonds, Light Taxes.

There are two classes in our community that favor the building of a new Court House—the members of the legal fraternity and those who have a large amount of real estate for sale in the city and vicinity. The lawyers favor the proposition because the old Court House is not as convenient as they would like to have it, and because a good lawyer is especially partial to a large and elegantly arranged Court room. Those who have a great deal of land for sale, correctly suppose that new public buildings would greatly enhance the value of their property, but they forget that purchasers may not be so eager to buy when they find the land is heavily taxed, to pay the interest on bonds issued to meet the new buildings. We do not believe that a proposition to issue one hundred thousand dollar's worth of bonds to pay for building a new Court House and Jail, would receive the support of one tenth of the tax-payers of the county, nor do we believe it wise or judicious on the part of our people to incur the responsibility at this time. This valley is rapidly increasing in wealth and population. The number of new comers and the money now coming into the valley is considerable. We should do nothing to check the wave of prosperity and cheek it if we certainly shall if we ever so slightly increase the rate of taxation above the present figures.

The Death Blow.

The HERALD has never believed that Congress could be induced to pass the Texas Pacific Railroad bill in the shape prepared by Colonel TOM SCOTT and his associates. Our reasons for doubting the success of the scheme were based on the general disinclination of the people to tax themselves for the benefit of private corporations and the unreasonableness of the demand embodied in the bill. The character of the "favor" asked by the friends of the project will be fully understood from the following showing made by the New York Evening Post:

Miles of road (main line, branches and extensions).....	2,931
Amount of bonds to be issued.....	\$117,360,000
Yearly interest at 5 per cent.....	5,868,000
Whole interest for forty years (the term of the bonds).....	234,729,000

The Government is requested to become responsible for the interest

which amounts to nearly six million dollars per annum during the brief period of forty years. The request is quite modest but that it will not be acceded to is indicated by the adoption in the House of Mr. HOLMAN's resolution which declares it to be the judgment of that body that "no subsidies in money, public lands, or by pledge of public credit, should be granted by Congress to associations or corporations engaged or proposing to engage in public or private enterprises; and all appropriations from the public treasury ought to be limited at this time to such amounts only as shall be imperatively demanded by the public service."

The temper of the House on this subject is indicated by the vote on the adoption of the resolution, which stood 223 ayes to 33 nays. This was probably a test vote on the Texas Pacific bill and the result proves that it is opposed by the leading members of both the Democratic and Republican parties and that there is not the remotest possibility of the bill becoming a law during this or any succeeding session composed of members elected by people entertaining opinions now entertained by the masses on the subsidy question.

OUR WASHINGTON LETTER.

Now begins—A Political Analysis—New Members—The Balance of Power—The Colored Members.

(Special Correspondence of the HERALD.)

WASHINGTON, Dec. 10th, 1875.

The organization of this, the first Democratic House of Representatives in 18 years was more largely attended and excites more general interest than any previous Congress.

It is to be regretted that a very large number, a great deal more than the Republicans are offere

and the colored members, at least by themselves, that about 700 of them will be disappointed.

The weather has been rainy, cold, and disagreeable, generally, yet the sea

is calm and the winds are light.

The galleries were crowded to their

utmost long before the hour of convening,

with women as well as men.

Delegates from the South in the proceedings that many carried yellow-covered novels to read during the recess hours, so fearful were they of losing their seats.

There is no question that the fact will be the unseating of fourteen Republicans early in January, that will increase the Democratic majority by 65 over the Republicans and Independents, of which latter there are six.

There is one vacancy from Tennessee.

Expenditures in Interior Department—Mueller, Penn, Chairman; Boone, N. Y.; Anderson, Ills; Woodworth and Tufts, Iowa.

LEGISLATIVE NEWS.

SACRAMENTO, Dec. 21.—General McConnell's bill, amending the Penal Code, so as to change the venue in certain cases, passed to engrossment

and was read the first time.

The Senate has resolved to adjourn to-morrow till the 3d of January.

The Senate has decided that it will

not be the same that fact will be the unseating of fourteen Republicans early in January, that will increase the Democratic majority by 65 over the Republicans and Independents, of which latter there are six.

There is one vacancy from Tennessee. The Committee on the Senate, the contest had one majority. The Committee has not yet decided the result and yesterday thirteen men, or 21, were elected to the Senate.

There are eighty members from the Southern States, 56 of whom are Democrats, 25 of 73 Senators, 42 are Republicans, 20 Democrats and 15 Independents of California, and 14 of Texas. Thus giving the Republicans a majority of 13—the Independents not voting, or, in case of tie, voting, increment to the Republicans, or, in case of tie, the case may be.

The vacant seat from Louisiana will undoubtedly be filled by the seating of the new member from that state, Pinchbeck, thus adding one more to the

Senate. Pinchbeck was elected in 1872, but was seated on the 3d of January, and yesterday thirteen men, or 21, were elected to the Senate.
